

CONTENTS OF VOLUME 10

Number 1

Foreword	v
Introduction	vii
Non-Destructive Test Analysis and Life and Residual Strength Prediction of Composite Aircraft Structures	1
I. R. FARROW & J. B. YOUNG (UK)	
Supportability of Composite Airframes: An Integrated Logistic Viewpoint.	17
W. GEIER & J. VILSMMEIER (FRG)	
Supportability of Composite Airframes: Civilian and Military Aspects	37
S. KUPCZYK (FRG)	
Assessment of the Effect of Impact Damage in Composites: Some Problems and Answers	51
R. JONES, J. PAUL, T. E. TAY & J. F. WILLIAMS (Australia)	
Carbon Fibre Composite on the Viggen Aircraft.	75
R. STENBERG (Sweden)	
Damage Tolerance and Supportability Aspects of ARALL Laminate Aircraft Structures	83
J. W. GUNNINK (The Netherlands)	
Supportability of Composite Airframes: The Lavi Fighter Aircraft	105
A. SEGAL (Israel)	
Supportability of Advanced Composite Structures	109
T. H. BENNETT (USA)	
Index	117

Number 2

Bending of a Bimodulus Laminated Plate Based on a Higher-order Shear Deformation Theory	121
CHIN-PING FUNG & JI-LIANG DOONG (Taiwan)	

Bending and Vibration of CFRP-faced Rectangular Sandwich Plates	145
HENRIQUE HIROSHI KANEMATSU, YOICHI HIRANO & HISASHI IYAMA (Japan)	
Distributed Damage in Composites, Theory and Verification	165
G. FRANTZISKONIS (Greece)	
Nonlinear Transient Response of Orthotropic Thin Rectangular Plates on Elastic Foundations.	185
P. C. DUMIR & A. BHASKAR (India)	
Announcement	197

Number 3

Design and Application of a Pultrusion for Multiple Use in the Fokker 100	199
ARNT OFFRINGA (The Netherlands)	
Vibration of Laminated Orthotropic Plates using a Simplified Higher-order Deformation Theory	211
N. R. SENTHILNATHAN, S. P. LIM, K. H. LEE & S. T. CHOW (Singapore)	
Vibration and Damping Analysis of Curved Sandwich Beams with a Viscoelastic Core	231
J. VASWANI, N. T. ASNANI & B. C. NAKRA (India)	
The Influence of Target Geometry on the High Velocity Impact Response of CFRP	247
W. J. CANTWELL (Switzerland)	
Book Reviews	267

Number 4

Fracture Behaviour of Fly-Ash Filled FRP Composites	271
V. K. SRIVASTAVA, P. S. SHEMAKAR & R. PRAKASH (India)	
Matrix-Fiber Stress Transfer in Composite Materials: Elasto-plastic Model with an Interphase Layer	281
FREDERIC C. LHOTELLIER & H. F. BRINSON (USA)	
Stress Concentration of a Laminate Weakened by Multiple Holes	303
WEI-XUN FAN & JIAN-GUO WU (People's Republic of China)	
Increasing the Damping of Flexural Vibrations of Laminated FPC Structures by Incorporation of Soft Intermediate Plies with Minimum Reduction of Stiffness	321
KURT MOSER & MICHAEL LUMASSEGER (Austria)	
Damage Mechanics and Composite Behaviour	335
W. S. CARSWELL (UK)
